

AMERICANS

On Ships Attacked by German Sea Raider Numbered Only Nine

REPORT NO LIVES LOST

Consul at Pernambuco Submits Detailed Report to State Department Giving Names of Americans Landed With Crews of Captured Ships—Sixteen Ships Are Named

[ASSOCIATED PRESS TELEGRAM]
Washington, Jan. 19.—Nine Americans were among the crew of the British ship St. Theodore, taken by the German raider and landed with other survivors at Pernambuco on the Japanese ship Hudson Maru. Consul Stewart today reported they were all safe and that so far as reported no other Americans were on the other ship.

The state department today made public the following cable from the consul, dated, Jan. 18, and received this morning:

"Hudson Maru brought 237 St. Theodore crew. List shows Americans, Ben Stevens, Royal Gregory, Frank Magee, Guy Von Doron, Minnie Shows, Charlie Jones. No Americans on other vessels named. All nine safe here.

"Survivors state that Yarrowdale, Georgia, Mount Temple, Voltaire, Showdown Range, King George, one English schooner and one Norwegian were captured to December 12 when prize crew and 440 men were placed on Yarrowdale and not heard from since."

"Another dispatch from Mr. Stewart dated Jan. 16 and received here Jan. 17 says:

"Crews of St. Theodore, Dramatist, Radnorshire, Minnie, Netherby Hall, Nantes and Asnières arrived today. Several Americans. Report no lives lost."

RAIDER HAS HELP.

[ASSOCIATED PRESS TELEGRAM]
New York, Jan. 19.—Notwithstanding the known activity of British warships, eleven of which are hurrying from many directions into South Atlantic waters in search of the German commerce destroyer which sank the Voltaire, Georgia and other entente vessels, increased apprehension was felt in marine circles today owing to undenied credence which the shipping world in general has placed on overnight reports that the black raider, believed to be the famous Noewe, is not operating unassisted.

"According to these reports this fugitive raider carried several sets of armament and has furnished guns to at least two of her captive ships the St. Theodore and the Yarrowdale, which in turn became preying rovers. The Yarrowdale, British, is reported to have arrived at the Cape Verde islands with the crews of eight of the ships which were sunk. Her early departure on a raiding mission would cause no surprise among shippers.

Reports as yet unconfirmed place the present whereabouts of the Moewe a considerable distance north of the Ireland-to-Brazil sea lanes where her havoc was accomplished. Meanwhile the entente war vessels, aside from hunting down an active raiding squadron, are keeping close watch on several merchant vessels of supplying the Moewe and her allies with food and of assisting them in other ways. As a precaution against an illegal use of Brazilian territory as a base of operations for the German ships a portion of the Brazilian navy is maneuvering off that country.

Zanesville Woman Has a Sister On Ship In Raider's Path

[ASSOCIATED PRESS TELEGRAM]
Zanesville, Jan. 19.—Rev. and Mrs. Herbert Scott, of the Grace M. E. parsonage entertain grave fears for the safety of Mrs. Scott's sister, Mrs. Edward W. McClosky and her two children, Margaret and Eleanor, aged 9 and 5, who are passengers on the British ship Vestris which sailed Friday, January 6, from Rio de Janeiro for New York and which is now believed to be in the path of the German commerce raider now in the South Atlantic ocean. The Vestris is due in New York the latter part of next week and has not been reported since sailing. It is not thought, however, that the raider is paying particular attention to coastwise shipping for fear of possible complications with this country. A later message states that the Vestris has left her usual course to avoid the raider.

RAIDER STILL AT LARGE.

[ASSOCIATED PRESS TELEGRAM]
Rio Janeiro, January 19.—Except for the accounts brought to Pernambuco by survivors of vessels which had been sunk, no authentic information has been received here regarding the unidentified German raider which has been roving the South Atlantic for more than a month. Since she parted company (Continued on Page 11, Col. 2.)

ATTACK

ON BETHMANN-HOLLWEG IN AUSTRIAN DUMA DOES NOT MATERIALIZE.

Unlimited Use of Submarines Is Mildly Urged by Conservative Leader in Address to Members.

[ASSOCIATED PRESS TELEGRAM]
Berlin, Thursday, Jan. 18, via London, Jan. 19.—The Prussian diet took upon itself today the role of critic of the government which the reichstag at its latest session refrained from doing. Nevertheless the prediction which was heard yesterday that the session would be marked by the most vigorous attacks on Chancellor von Bethmann-Hollweg turned out to be incorrect. The speech of Dr. von Heydebrand, conservative leader, who is associated with the centrist and national liberal parties, in favor of a more unrestricted use of submarines, was far more moderate than on earlier occasions and was not characterized by attacks on the United States.

Paul Breitenbach, minister of public works and the chancellor's second in the Prussian cabinet said in a carefully worded declaration in behalf of the government:

"This grave and difficult epoch requires ever renewed discussion of what ways and means are to be adopted. He added, however, that he considered any expression of the government's views at present to be undesirable. Responsibility for decisions, he said, rested on the chancellor and he appealed to the patriotism of the house to support this difficult task by refraining from criticism of his policy—and appeal which the proceedings showed to be unnecessary."

It was commented that even Dr. von Heydebrand, in advocating unrestricted submarine warfare demanded it only at such time as the emperor and Field Marshal von Hindenburg found it to be advisable. He said:

"If we are to win a victory it is absolutely imperative to use the weapons which give us the possibility of winning victory against the toughest and strongest adversary. England. If our military authorities, the higher command, and the emperor, find it suitable and timely to make the necessary use of unlimited submarine warfare the German and Prussian people will be prepared to bear the consequences."

INTERFERENCE RESENTED.

[ASSOCIATED PRESS TELEGRAM]
London, Jan. 19.—A demand that neutral interests shall not be allowed to interfere with German's struggle for victory was made at the opening of the Prussian diet yesterday by Herr Friedberg, leader of the National Liberal party, according to an Amsterdam dispatch to Reuters. Herr Friedberg was one of a number of speakers who urged a vigorous prosecution of the war and increased submarine activity. He said:

"We must expect from every neutral that he do not lay stress on his own interests where for us it is a fight for existence. Such interests must not prevent us from gaining a peace that will satisfy German aspirations and safeguard the world from new and similar catastrophes." Paul Breitenbach, Prussian minister of public works who made a speech along similar lines said:

"The gigantic events of the war necessarily affect state machinery. The government and parliament must come to an understanding and a settlement but there can be no question that the entire state machinery needs a fundamental change. We demand that everybody does his utmost for the fulfillment of his duty in order to help our armies to victory."

CREW RESCUED.

Find Plenty of Fight Left in Reorganized Russo-Rumanian Army

LINE IN FRANCE WATCHED

Extreme Southern Sector of Line Expected to Develop Action of Some Importance Soon—Germans Concentrate Troops to Attempt Rescue of Alsace From the French

Events on the European battlefields are summarized from reports from capitals to the Associated Press as follows:

Heavy fighting is still in progress on the Rumanian front, with the Russians and Rumanians apparently more than holding their own, for the time at least, against Field Marshal von Mackensen's armies. Elsewhere in the field of military operations there have been few activities of importance.

This holds true of the Franco-Belgian front where the quiet has been broken recently only by the British activities north of the Somme, which have resulted in advances for them recently near Beaumont Sur-Ancre. Indications are that this is not likely to endure long and in this connection the extreme southern sector of the line is being closely watched.

The French here occupy a considerable section of Alsace, the fighting line touching the Swiss border between Belfort and Basel. Concentration of masses of German troops across the line from Basel has recently been reported in Swiss newspapers and a belief is said to exist in Switzerland that the Germans contemplate an offensive with the object of freeing Alsace of the invaders.

The Swiss federal council early this week, while expressing confidence that none of the powers contemplated a violation of Swiss neutrality, ordered the mobilization of additional troops as a measure of precaution. Both Germany and France assured Switzerland recently that they would continue to respect her neutrality.

No further news of the whereabouts of the German sea raider which has been sinking entente shipping in the south Atlantic has been received but the arrival at Cape Verde island of the British steamer Yarrowdale, with the crews of eight of the ships disposed of by the raider, said to number some 400 persons, is reported in unofficial advices received at Rio Janeiro.

Neither Berlin nor Petrograd today reports any notable change as the result of the fighting in Rumania. The Germans, according to their report, repulsed attacks north of the Sutchiza valley on the Moldavian frontier. German long range guns, the Russian statement announces, are bombarding Oena an important town on the lateral railway behind the Russian front, in southwestern Moldavia, doubtless with the object of interfering with Russian transportation on this line. In eastern Galicia the Germans took the offensive in the sector near Zborow, east of Lemberg, but according to Petrograd were repulsed after they had succeeded in penetrating the Russian lines at one point.

CIGARETTES JOIN OTHER ARTICLES IN UPWARD TREND

[ASSOCIATED PRESS TELEGRAM]
New York, Jan. 19.—Increased prices for cigarettes were announced here today by the United Cigar Stores Company and the Tobacco Products Corporation. Advances by the United to become effective next Monday, range from one to three cents a box of a dozen of cigarettes. The higher cost of labor, tobacco and wrapping material is given as the reason. The increases by the Tobacco Products Corporation, effective at once, scale from 25 cents to \$1.00 for each thousand cigarettes.

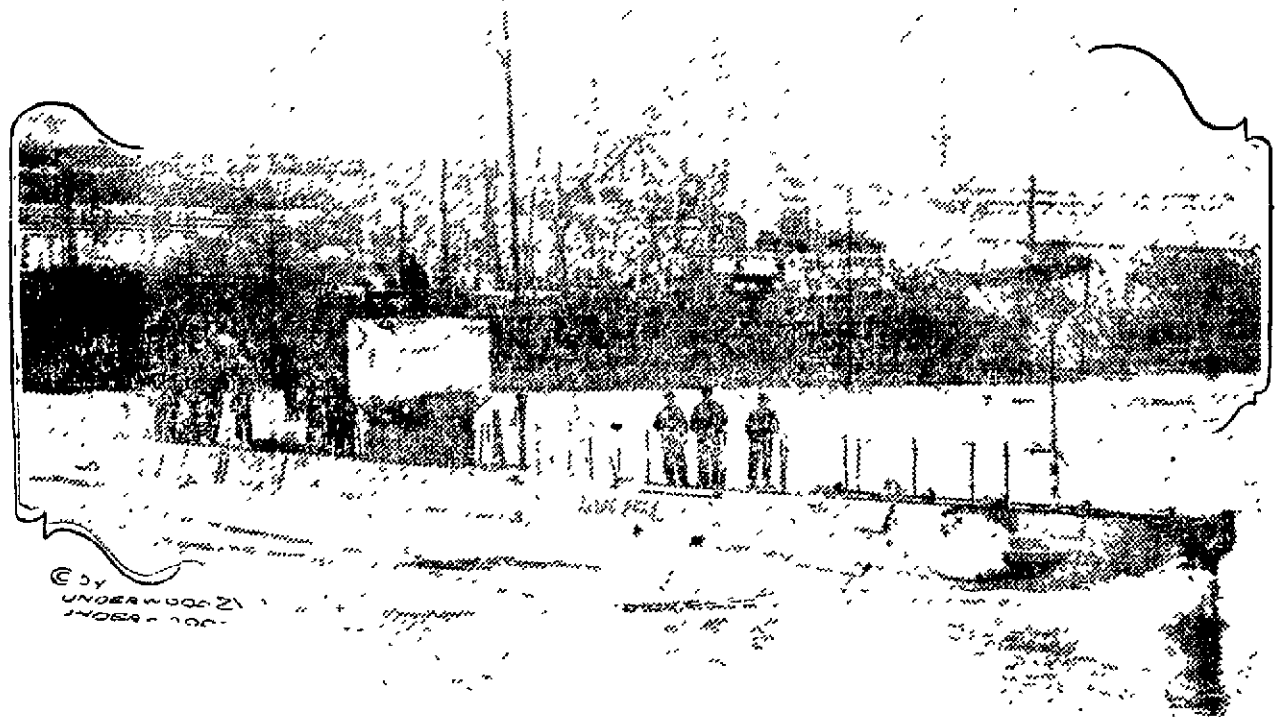

RUSSIANS TAKE 428,000 ENEMY PRISONERS IN 1916

[ASSOCIATED PRESS TELEGRAM]
London, Jan. 19.—More than 428,000 officers and men were taken prisoners by the Russians during the past year, and 225 guns captured, according to the Russian Service Organ, as quoted in a central news dispatch from Petrograd today.

Swiss Commander Would Mobilize Entire Military

[ASSOCIATED PRESS TELEGRAM]
Paris, January 19.—General Ulrich Wille, commander of the Swiss army, wishes to mobilize all Switzerland's military forces, according to a Bern dispatch to the Petit Parisien. The federal council is said to regard such a measure as excessive and to have decided to mobilize only the second and fifth divisions but it is considered not impossible that further units will be called to the colors.

WORLD'S BIGGEST SUBMARINE BUILT IN U. S. FOR SPAIN

Submarine Isaac Peral leaving Fore River shipyards for practice tests at sea.

This submarine is the first war vessel to be built in the United States for Spain. It was built at the Fore River plant, Quincy, Mass., and was launched July 20, 1915, Senora de Riano being its sponsor. The vessel is 196 feet long, has a four-inch deck gun and four torpedo tubes and is capable of cruising 6,000 miles without renewing its fuel supply.

WHIPPLE NAMED AS COUNSEL FOR "LEAK" PROBERS

[ASSOCIATED PRESS TELEGRAM]
Washington, Jan. 19.—Members of the house rules committee investigating alleged "leak" on President Wilson's peace note apparently were confident today that Sherman L. Whipple, noted Boston lawyer, would accept the committee's invitation to act as its counsel in the inquiry. He will come to Washington tomorrow to confer with the committee and definite announcement of his acceptance is expected to follow.

Mr. Whipple was agreed upon by the committee last night after a long and bitter contest over the selection of counsel. Samuel Untermyer, a New York lawyer, had been strongly urged for the place, but on objection of some Democrats as well as all the Republicans, his name was dropped.

The committee will hold no further public hearings until Monday when a score or more of witnesses will be on hand ready to testify. Meantime, the committee will confer with counsel to perfect plans of continuing the leak investigation.

A telegram from Untermyer, protesting against the use of his name as though he "had been seeking a job read to the house by Representative Fitzgerald, precipitated a discussion of the leak inquiry. The telegram declared Untermyer did not want the place and could only have it at a great sacrifice.

Army Men Give Up Hope For Two Missing Aviators

[ASSOCIATED PRESS TELEGRAM]
Calixico, Calif., Jan. 19.—Military authorities practically convinced of the death of Lieutenant Colonel H. G. Bishop and Lieutenant W. A. Robertson, Jr., who have not been heard from since attempting an airplane flight from San Diego January 10, were nevertheless determined today to prosecute the search until all doubt as to their movements since that date, had been removed.

Three army airplanes are to ascend today to visit the locality in the desert of northern Sonora, Mexico, where rumors said Papago Indians reported yesterday they had seen the bodies of two white men clad only in underclothes, at a water hole.

Whether the unarmed aviators perished at the hands of hostile Indians or Mexican bandits, or whether they had perished of thirst or exposure, was not indicated by the reports.

German Steamer Passes Flushing Enroute to Antwerp

[ASSOCIATED PRESS TELEGRAM]
London, Jan. 19.—A Reuter dispatch from Flushing, Holland, today reports the German steamer Vresla Fischer passing there from Zeebrugge on her way to Antwerp.

"This is the first German ship that has passed in this direction since the fall of Antwerp," the dispatch adds.

POSSE HUNTS BANK ROBBERS; RETURNS WITH THREE BODIES

[ASSOCIATED PRESS TELEGRAM]
Okmulgee, Okla., Jan. 19.—A posse of 10 men which left here early today in search for alleged bank robbers, returned about noon with the bodies of Oscar Poe, Will Hart and Harry Hart. The men killed were engaged in a skirmish with the posse about 18 miles southwest of this city.

U-BOAT SHOOTS 50 TIMES WITHOUT STOPPING VESSEL

[ASSOCIATED PRESS TELEGRAM]
Portland, Me., January 19.—Officers of the British steamer Palm Branch, which arrived here yesterday from Cardiff via New York, reported today that a submarine fired fifty shots at the vessel while in the English channel early in November. Ten or twelve shots took effect. The steamer escaped by suddenly changing her course.

A boy was struck and slightly injured. The Palm Branch returned to Cardiff for repairs and the officers said they learned that the submarine later was captured or sunk.

PROSPERITY IN NEW YORK BRINGS THIEVES TO CITY

[ASSOCIATED PRESS TELEGRAM]
New York, Jan. 19.—The large number of daring robberies that have occurred in this city recently is said by Police Commissioner Woods to be the natural result of war time prosperity, which has brought so much money and so many pleasure seekers to New York.

Confidence was expressed however, that the great majority of the criminals previously driven from the city were afraid to come back and that those now operating here soon will be rounded up.

SOUTH HONORS MEMORY OF LEE WITH A HOLIDAY

[ASSOCIATED PRESS TELEGRAM]
Richmond, Va., Jan. 19.—Robert E. Lee's memory was honored today throughout the south. The one hundred and tenth anniversary of his birth was observed as a holiday in all southern states and memorial exercises were held in many cities and towns.

Secretary of War Baker was the principal speaker at the celebration at Washington and Lee University at Lexington.

WINDSOR PEOPLE WALK TO DETROIT OVER ICE CHUNKS

[ASSOCIATED PRESS TELEGRAM]
Detroit, Jan. 19.—Scores of persons risked their lives this morning by walking from Windsor, Ont., to Detroit, on the ice clogged Detroit river. For the first time in 14 years ferry boats between the two cities have been unable to make their trips. Detroit policemen were ordered to prevent any more persons from crossing on the ice.

A powerful ferry boat with 300 passengers aboard tried to make the trip to Windsor this morning but was compelled to return to the local dock.

500,000 Syrians Starve to Death Says Italian Report

[ASSOCIATED PRESS TELEGRAM]
Rome, via Paris, Jan. 19.—Five hundred and ten thousand people have died of starvation in Syria according to information received by the Corriere d'Italia. Lebanon is said to have suffered particularly while at Beirut, inhabitants are said to have been picked up on the streets dying of hunger. The number of suicides is increasing to appalling proportions. Similar horrors are reported as occurring in Palestine and parts of the interior inhabited by Christians.

Ohio Manufacturers In Columbus Convention Believe In Principle of One Per Cent Tax Law—Oppose Any Alteration In Workmen's Compensation Law

[ASSOCIATED PRESS TELEGRAM]
Columbus, January 19.—The Ohio Manufacturers' Association in the closing session of its annual convention here today went on record as opposed to any change in the principle of the Smith one per cent law so long as the present uniform rule of taxation provided in the legislation shall remain in effect but agreed some temporary amendments may be justified.

"The association commends the spirit with which Governor Cox and the general assembly has taken up the tax problem but urged that care be taken to safeguard the control that the taxpayers now possess over the power to limit and restrict taxation. The single tax, income tax and classification of property were suggested as solutions for the taxation problem worthy of consideration, none of which are possible without change of the constitution.

W. H. Stackhouse, chairman of the committee on workmen's compensation reported that the committee was averse to any general amendment to the present workmen's compensation law, preferring that it be permitted to complete a cycle of six years.

"We are not inclined to oppose the proposed amendment in the initiated bill before the legislature in so far as it relates to industrial accidents and so-called willful acts of employers," said Stackhouse, "but we are unalterably opposed to its including the item of occupational diseases which was never contemplated being covered by the compensation act."

The convention decided to refer the initiated amendment backed by organized labor, proposing to eliminate private liability insurance companies from compensation with the state compensation fund to a referendum vote of its entire membership before taking any stand on the proposed amendment.

The Manufacturers' Association went on record as opposed to removal of any member of the industrial commission or any subordinate during their terms of office except for cause and urged an amendment to the law prohibiting any of the members of the commission or any of its employees from participating in politics. The commission was urged in the report of Mr. Stackhouse to endeavor to effect a reorganization of its medical system relating to inspection and prompt completion of claims.

The association was said to be divided on the question of health insurance and may take this matter to a referendum vote of the entire membership.

State Auditor Donahay addressing the manufacturers this morning on taxation declared: "Only one lone law—the Smith one per cent law—is found in the general code of Ohio to protect taxpayers and Ohio laws provide 2600 ways to collect fees, fines and penalties besides 200 different laws to create public debt."

"Legislatures," said Donahay, "spend 98 per cent of their time trying to correct our civic and financial ills from the tax paying end of the problem; by discovering new methods of raising current revenues two per cent to curbing the tax spending end and no attention is given to the collection of taxes and assessments due and unpaid."

"In 1916," Donahay continued, "twelve and one-half millions of dollars in uncollected delinquent personal, liquor, corporation and other taxes were reported to the auditor of state."

Why were these not collected," he asked. "We are living in an age of remitted fines, indeterminate sentences, paroles, pardons, inspections, license and permit laws, business control, all tending to increase the cost of government and destroy discipline in both public and private life," said Donahay. He pleaded with the manufacturers to help him put through the legislature his program of remedial laws, "none of which create new jobs," he said.

Old officers of the Manufacturers' Association were re-elected.

Some of the authors of game protection bills wanted them referred to committee on fish and game and others to the committee on agriculture.

The general assembly adjourned in memory of Admiral Dewey until Monday afternoon.

Influence of rural members on the special joint committee to draft the new taxation law yesterday resulted in naming Representative I. S. Guthrie of LaRue, Marion county, as chairman, instead of Senator Wm. Agnew of Cleveland, who had been slated for the place. The latter was said to have been the choice of Governor Agnew, instead of Senator Wm. F. Harding of Cincinnati is secretary. The committee will begin regular meetings Monday.

ANNOUNCE PLANS FOR FUNERAL OF ADMIRAL DEWEY

(ASSOCIATED PRESS TELEGRAM)
Washington, Jan. 19.—The order of services for the funeral of Admiral Dewey tomorrow at the capitol was announced today by the committee of the house and senate having charge of the arrangements. The official announcement follows:
"The capitol will be closed on the morning of the twentieth of Jan. to all except members and officers of the senate and house of representatives and remain closed until the cortege has left the capitol."
"At ten o'clock the lower doors under the arches beneath the marble steps of the senate and house wings of the capitol, will be opened to those to whom invitations have been extended under the resolution of congress and to those holding tickets of admission."
"The services will begin at 11 o'clock a. m. Saturday."
"The body of the late Admiral George Dewey will be placed in the rotunda prior to the beginning of the services."
"The President of the United States and his cabinet, the chief justice and associate justices of the supreme court, the diplomatic corps, the members of the senate and house of representatives, the chief of staff of the army and the officers of the army and navy will meet in the president's room."
"The supreme court will meet in the supreme court room."
"The diplomatic corps and the chief of staff of the army will meet in the senate reception room."
"The committee on arrangements will meet in the room of the committee on naval affairs of the house."
"After all invited to attend have been announced, Chaplain J. B. Frazier, United States navy, will conduct the religious services."
Orders for the placing at half mast of flags on all postoffices throughout the nation in honor of Admiral Dewey were issued today by Postmaster General Burleson who directed flags to remain at half mast until after the funeral on Saturday and that the postoffice department be closed all that day.
In announcing other details of arrangement today Secretary Daniels said the midshipmen from Annapolis would form the only escort for the body when it was removed from the Dewey home to the capitol.
The officers in charge of the ceremonies decided to exclude the other military organizations from attendance at the home in deference to the admiral's wish, made known when he first realized the hopelessness of his condition.
"The admiral also said at that time," the secretary said, "that he wanted the midshipmen to come as his friends and not under orders. His wish will be respected."
The other military organizations will be stationed at the capitol and after the services there will form the larger escort to accompany the cortege to Arlington cemetery. The President and Mrs. Wilson will attend the private services at the home.

Special Services End This Evening Communion Sunday

At the Presbyterian church last night the Rev. Mr. Lawther drew a picture of a misspent life. When one realizes that the life of every man is the wellspring of a stream, whose small beginnings are indeed plain, but when the ultimate destination is reached and he looks back through the years and opportunities that have been forever neglected and, far worse, have been so often the current that carried others farther and farther away, it is a sad picture.
Tonight will be the last opportunity to hear Mr. Lawther and those who have heard him, hope that some time again he may return for another series of meetings.
It is not too late now to turn the tiny stream of life into the current that will develop the talents and opportunities so that one may enrich and bless every body with whom he comes in contact. Attend tonight's meeting at 7:30 and make the decision that will bring the only peace and happiness worth while.
Next Sunday will be communion day at the First Presbyterian church.

PRES. WILSON TO HURRY PASSAGE OF LABOR BILLS

(ASSOCIATED PRESS TELEGRAM)
Washington, Jan. 19.—In an effort to clear the legislative calendar of administration measures before the next house with questionable political statutes comes into power, President Wilson conferred at the capitol today with the senate steering committee.
For two hours he went over the program he outlined in his opening address to congress last December laying particular stress upon the railroad labor measure. He said that he still desired enactment of the whole program before March 4, if possible.
In addition to revenue legislation, the president also urged action on a corrupt practices bill, the Webb bill to permit domestic corporations to maintain collective foreign selling agencies; waterpower and mineral leasing measures and the Porto Rican citizenship bill.
Although there was no suggestion of an extra session in case the president's program cannot be completed by March 4, Senator Kern declared that the thought in the minds of all was that it would be much less difficult to enact the measures to which the democratic party has been committed at this session than in the next congress.

WOULD FORBID IMPORTATION OF YOUNG TREES

(ASSOCIATED PRESS TELEGRAM)
Washington, January 19.—Legislation to forbid importation of nursery stocks, except by the federal department of agriculture for experimental purposes, was proposed to the American Forestry Association at its conference on the pine blister disease here today, as the only means of preventing spread of a multitude of insect pests and plant afflictions now threatening forests and farm crops. Nurserymen opposed the suggested legislation on the ground that high prices of many fruit trees and shrubs now imported, would result from their propagation in this country.

CONDENSER WILL SAVE MUCH COAL AT WATER PLANT

The new steam condenser for the city water works plant arrived today having been shipped on December 30 from Harrison, N. J. Service Director Christian has notified the manufacturers and they will send on a man at once to install the machine.
By the use of this condenser the coal consumption will be reduced nearly one-half as it will convert the steam after use into hot water which will be carried directly into the boilers, whereas at present cold water goes into the boilers and has to be converted into steam.

Lynching Party Listens to Reason; Prisoners Saved

(ASSOCIATED PRESS TELEGRAM)
Clay, W. Va., Jan. 19.—A mob of more than 150 armed men appeared at the Clay county jail here early today, and demanded Andrew and Howard Sampson who were confined there charged with murdering Preston Tanner and burning his home. The turnkey who had the keys could not be found and the mob fired into the jail but no one was wounded. A number of citizens, including lawyers and clergymen, addressed the mob, and pleaded with them not to lynch the men.
On the promise of the lawyers that a special term of court would be called and the prisoners given a speedy trial the mob dispersed. The Sampsons will be taken to Sutton or Charleston, while arrangements for the trial are being made.

German Invasion is Words to Use Says French Deputy

(ASSOCIATED PRESS TELEGRAM)
Paris, Jan. 19.—Jules Roche, Republican deputy for Ardeche, introduced a bill in the chamber of deputies today requiring government officials, officers, judges, newspapermen and every one making any public reference to the war to name it "the German invasion" under penalties provided for those adding the countries hostile to France. The object of the measure, the deputy says, is to prevent a false conception historically of the origin of the war. M. Roche and his colleagues supporting the bill, point out that history refers to certain previous wars as invasions by Attila, by the Teutons, and by the Cimbrians.

HARDWARE DEALERS.

Dayton, O., Jan. 19.—Abolition of trading stamps and coupons will be advocated at the state convention of retail hardware dealers in this city February 24-25, and policies with reference to meeting mail order house competition will claim attention. Much of the sessions will be given to discussing efficiency in store management and in salesmanship, cost accounting and standardized methods of handling stocks and sales.

Surgeon Explains Testimony Given In Frisco Plot

(ASSOCIATED PRESS TELEGRAM)
San Francisco, January 19.—Dr. W. E. Stafford, autopsy surgeon who examined the bodies of those killed by a bomb explosion during a preparedness parade last July, as the result of which Thomas J. Mooney is on trial here, on a charge of murder, took the witness stand today and explained to the court just what he meant when he said yesterday that "in his opinion the bomb could not have exploded from the sidewalk because of the wounds in the heads of several of the victims."

The state contends that the bomb was placed on the sidewalk by Mooney and Warren K. Billings now serving a term in prison. Dr. Stafford was being cross examined by Attorney W. Bourke Cockran when he made the admission which the defense said is considered a break in the chain of the state's evidence. Dr. Stafford requested that he be allowed to qualify his opinion.

A half dozen physicians are expected to testify today regarding the death of the ten men and women while two score relatives of the dead were summoned to the stand.

POLITENESS PAYS IN DIMINUTION OF CAR ACCIDENTS

(ASSOCIATED PRESS TELEGRAM)
New York, Jan. 19.—A marked diminution in minor trolley car accidents within the last few weeks in that section of Long Island traversed by the New York and Queens county electric railway is attributed largely to the training received in the "politeness school" recently established by the railway company. An official said today that this alone would more than pay the expenses of the school which approximated \$2,500.

LOCAL WEATHER

Temperature last night dropped to 16 degrees above zero, just to protect the good name of the weather-sharks in the federal bureau in Columbus. Then to make it "all the more binding" Jack Frost lopped on six more degrees before morning and at breakfast time this morning it was 10 degrees above. There was no increase in the supply of gas pressure and lights and heating stoves showed the additional drain on the supply main.
Indications that the backbone of this cold snap has been broken, are found in the forecast issued today by the Columbus bureau. Warmer weather tonight is promised and Saturday will be unsettled.
Today's Temperature:
Lowest 10 degrees above zero.
At 8 a. m. 13 degrees above zero.
At 2 p. m. 25 degrees above zero.

DRY DEMOCRATS SEEK CONTROL OF PARTY IN STATE

Columbus, Jan. 19.—Two Licking County Democrats, J. Henry Miller and W. A. Oldorf, are members of a committee of which Mayor J. A. Rice of Canton is chairman, to arrange for a convention of dry Democrats to be held in Columbus April 13.

Ways and means then will be discussed to extend their influence with a view to gaining control of the party as soon as possible. About 100 Democrats attended a conference yesterday at the A. I. U. Hall, West Broad Street.

William Jennings Brice told them if the party will espouse the prohibition cause its future success is assured. Members of the committee are: J. Henry Miller of Newark, majority floor leader, in the senate; Senator T. M. Berry of Allen County, former congressman; John J. Lantz, J. H. Seerest, former member of the state liquor license commission; Attorney C. E. Bolcher of Columbus; Attorney J. A. Shearer, former state registrar of automobiles; J. R. Alexander, Zanesville; W. A. Oldorf of Licking County; E. M. Boegs of Barnesville; G. B. Hoise of Fulton County; A. A. Mayhills, Dayton; J. A. Winn, Defiance; S. A. Probst, Cincinnati; and J. E. Hurst, New Philadelphia.

SYMPHONY

ORCHESTRA DIRECTED BY WALTER DAMROSCH PLEASED
BIG AUDIENCE AT
AUDITORIUM.

Program Prepared to Appeal to Popular Musical Taste—Musicians Go Direct to New York City.

The appearance of the New York Symphony Orchestra, with Walter Damrosch conducting, marked an epoch in Newark's musical history, and the large audience heard a symphony concert that in every way was up to the best standard of excellence that this organization has set and maintains.

The concert was the second big number on the course provided by the Women's Music Club, and the members of this organization deserve the highest commendation for giving this opportunity to hear the very best in the highest field of musical endeavor.

The concert was in itself most satisfying from every standpoint. In the first place Mr. Damrosch had on the stage exactly the same orchestra that plays in Aeolian hall, its headquarters in New York, which is just about the same size as the Newark Auditorium. There were 78 musicians on the stage, the largest organization that ever appeared in this city.

The program was one which had been prepared probably with the idea of appealing more to the popular musical taste than to the exclusively esthetic. There was melody throughout which never was sacrificed to the graver standards of counterpoint and strict symphonic construction, which sometimes weighs down a program so that it can be enjoyed and appreciated only by those who have an intimate knowledge of the laws of orchestral harmony and instrumentation.

The symphony was one of Mozart's and consisted of four movements, each of which had its peculiar charm, but the minuet and finale were played in a manner that was well calculated to enthrall the audience and show its appreciation by hearty applause.

The careful instrumentation of the orchestra was in evidence throughout this number, the strings, woodwind, brass and percussion groups each contributing its appropriate timbre to the grand total effect of the full orchestra. It was a tremendous volume of harmony, the like of which never was heard in Newark before.

The other numbers of the program also were rendered faultlessly, possessing the same subtle power of pleasing melody. A character study in music was two numbers from Saint-Saens' Henry VIII which brought out the peculiar Scotch musical intervals in symphonic form, which also was true of an Irish jig theme played in response to an encore.

The big string band gave a rendition of a Tchaikovsky andante, which had a beautiful song effect, especially when the pretty melody was carried by the cellos and violas while the violins played a pizzicato accompaniment.

But the climax of enthusiasm was reached on the part of the audience when the notes of the "Beautiful Blue Danube" waltz by Johann Strauss, the younger, which not only was familiar to almost everyone, but was played in superb style. Although the last piece upon the program the conductor and orchestra were given an ovation by those in the audience who were loath to leave.

Engelbert Roentgen was soloist "cellist of the evening and after playing two numbers listed on the program with orchestral accompaniment responded with a difficult number played without a note from any other instrument, that would act as a foil. His playing was virile yet always in exceeding good taste and the artist himself was absolutely free from those affectations that always annoy and sometimes disgust. He was applauded even by Mr. Damrosch and his fellow members of the orchestra.

Mr. Damrosch chatted very pleasantly about his orchestra at the Hotel Sherwood, yesterday afternoon after rehearsal at the Auditorium as well as upon general musical matters. The orchestra came to Newark from Grand Rapids, where a concert was given Wednesday night, in a special train consisting of three Pullmans, a dining car and baggage car. Immediately after last night's concert the musicians left on their special for New York City over the Pennsylvania, and will give a concert tomorrow afternoon. This trip to New York cost the management \$1,098.

There are 13 nationalities represented in the orchestra, the preponderance being American, German, Russian and French. There are also Belgians, Dutch, Norwegians, Austrians, Hungarians, Bohemians, Poles, English and Rumanians.

"However they may amalgamate in a musical organization, they are separate and distinct entities, and in the European war each has his own sympathy with one group of belligerents.

"The war has not decimated my orchestra to any appreciable extent, although there are no recruits to be had from Europe.

"This does not affect the organization at present, because the body of the orchestra has been with me for a long time, and are naturalized citizens. Recruits can be had from American musicians, and that would be my ultimate triumph to have an American organization if possible. But at present this cannot be. One of my first flute players, a pupil of the older player, is the son of an American missionary, born in Hawaii but thoroughly American. And he plays beautifully too.

"This is my first visit to Newark. I have walked about some today and will say you have a beautiful city. And the hall in which we held rehearsal today, is one of the best we have ever had on tour, as to size and excellent acoustical properties.

beginning last October. Tours from New York like the one we are on now, never last more than a week and four days, as we have to be there to play our regular subscription concerts. Up to March we will have given 75 concerts and then take a trip to the Pacific coast during which we give 75 more, sometimes playing five or six times a week.

"Next year the orchestra will have its own manager, and transact all of its own business instead of having this done by some booking agency as in the past," concluded Mr. Damrosch, and the very pleasant interview was at an end.

The writer was permitted to hear a full orchestra rehearsal yesterday afternoon, of the symphony to be played at Saturday's concert in New York. Mr. Damrosch's methods with his musicians are those of the indulgent master with his favorite pupil. His tone of voice for the most part is conversational, sometimes he indulges in humorous by-play. He is seldom stern with his men and never harsh, yet he commands instant attention, obedience and respect.

The men realize that as Mr. Damrosch reads a score, it is thus he wants it played, and all endeavor with consummate skill to enter into his interpretation without the least reluctance to subordinate any individual preconception of their own. It seems that the great conductor's ear singles out every instrument and instantly detects any defect of execution or sense of proportion, that in any way detracts from the harmony of the symphonic whole as it is inscribed upon his brain.

For an hour and a half the orchestra rehearsed one piece. It was not begun and played through, and then repeated. The score was divided for convenience of reference into sections either numbered or lettered, some sections consisting of maybe not more than a dozen measures. A section would be started and maybe before half completed either the baton or the left hand would be lifted, signals to stop. Mr. Damrosch would have some suggestion of a different bowing for the first and second violins, and would say, "Now all together boys," and the section would be repeated. May be this time the fraction of instruments came in the fraction of a beat too soon, and then would be heard the admonition, "Now I don't want to hear a sound from the percussion section until they hear the trumpets take that sixteenth note. Please remember gentlemen."

Thus it was time after time, stopping the orchestra and giving a direction to one or another or a group of instruments, sometimes having the passage played alone by the bases, the cellos, the trumpets, and then repeating the whole orchestra until it was musical perfection.

Only once was a stern command given, and after it was uttered a pin could have been heard to drop. Something distracted the orchestra and there was a hum of conversation and some jollity, when like the crack of a pistol came Mr. Damrosch's voice:

"Gentlemen! Concentration. No more joking. I want have it." Every eye was riveted upon him, every lip and finger was upon strings and keys, when in a calm and pleasant tone the conductor said, "Once again now please, beginning two bars before the letter 'G.'"

It is by this strict attention to details, the smoothing of every rough edge by conscientious practice, the individual ability of each player, all directed by the genius of Walter Damrosch that has placed the New York Symphony in the front rank of American orchestras.

MILLIONS FOR DEVELOPMENT OF OIL FIELD

Zanesville, Jan. 19.—From present indications the northern Muskingum oil field is going to prove one of the richest deep sand territories developed in recent years. Several remarkably good wells have been drilled in within the past few weeks and much new work is being started.

The Ohio Cities Gas company, which is the owner of some of the best wells struck, has a big block of territory under lease, is making preparation for development work on an unusually large scale.

This company filed with the county recorder Wednesday a copy of an agreement with the Guaranty Trust company of New York, whereby the latter becomes the trustee for a \$5,000,000 bond issue by the Ohio Cities company. The proceeds from the bonds will be used in development work in the northern Muskingum field, where the company already has an enormous investment.

C. A. Ralph, who has large holdings in the Perry county field, and who has been remarkably successful in development work, filed leases Wednesday on eight promising tracts in Cass township. Other operators are also acquiring leases quietly and it is understood that development work on an unusually large scale will begin early this spring.

The Buckeye Pipe Line company is making costly extensions to its line to handle the new production.

IF YOU ARE A DRINKING MAN

You had better stop at once or you'll lose your job. Every line of business is losing its doors to "drinking" men. It may be your turn next. By the aid of ORRINE thousands of men have been restored to lives of sobriety and industry. We are so sure that ORRINE will benefit you that we say to you that if after a trial you fail to get any benefit from its use, your money will be refunded. When you stop "drinking," think of the money you'll save; besides, sober men are worth more to their employers and get higher wages.

Costs only \$1.00 a box. We have an interesting booklet about ORRINE that we are giving away free on request. Call at our store and talk it over.

Instrumental and Vocal Triumphs in New Columbia List

THE most brilliant names in the instrumental field distinguish this month's list of Columbia Records: the Chicago Symphony Orchestra, with Wagner's "Ride of the Valkyries;" Pablo Casals, with Schumann's "Abendlied;" Josef Hofmann, with Paderewski's "Minuet in G;" Kathleen Parlow, with the "Cavalleria Rusticana" Intermezzo; and Eddy Brown, with Massenet's "Elegie."

Equally distinguished is the vocal list, with Oscar Seagle singing Moore's "Meeting of the Waters;" Lucy Gage rendering "Come My Beloved;" David Bispham with his famous "Danny Deever;" and Vernon Stiles singing "At Dawning" and "Because"—examples of the quality and interest of the

Kidney Troubles Come on Slowly

DODD'S KIDNEY PILLS STOP THEIR APPROACH

Drive Uric Acid from the System, Banish Backache, Dizziness, Lame, Stiff Joints, Purify the Blood and Restore the System to its Natural Healthy Condition. But be sure You Get "Dodd's."

If kidney disease attacked us suddenly, as does appendicitis or a fever, we would be forced to take to bed immediately. But it doesn't. Its process is slow, destructive and fatal in its constant undermining of health. Do not neglect its very first symptoms and lose no time in repairing the over-worked, sickly kidneys. Just as soon as appears the slightest backache, throbbing pain through the joints, stiffness in stooping or lifting, start immediately toning the kidneys. Take heed of these danger signals, as well as spots appearing before or puffiness under the eyes, dizzy spells, rheumatic pains, swollen feet or ankles, bed-wetting, nightly arising, sediment. Begin taking Dodd's Kidney Pills at once. For years thousands who have used "DODD'S" to tone and revive their sickly kidneys, have testified to its merits. Be sure to get Dodd's the name with the three D's, for diseased, disordered, deranged kidneys. No similar named article will do. Your money back if not satisfied. Advertisement.

ESTABLISHED IN 1820.

Entered as Second Class Matter March 30, 1882 at the postoffice at Newark, Ohio, under the Act of March 3, 1879.

The sunrise occurs so late in the morning now that the sports can hardly stay up long enough to see it.

When Harry Thaw sees all this publicity in the newspapers, he may be reconciled to being in the grip of the law again.

The prevailing idea of preparedness is a plentiful supply of note paper and a competent force of stenographers and typewriters.

There is nothing new about leak scandals, as some of us who have pulled Small Brother out from under the coupling sofa can testify.

No interest in the Daylight Saving movement is as yet manifested by the young people who will sit out on shady porches next summer.

Perhaps the enthusiasm manifested by the children in the save paper campaign must be stimulated by the shortage of good spitball material.

There are 263,315 typewriters and stenographers employed in this country. It ought not to be difficult to pick out a good one from so many.

It is not known that many of the people who protested so vehemently that Harry Thaw should be set free, have applied to have him for a near neighbor.

When a man talks about the extravagance of automobiles, it is a sign that he is struggling against a temptation that will overcome him about May first.

Now that women are wearing overalls, will they take up smoking, the physical difficulties that have prevented them from lighting a match being removed?

In view of the claims that Congress spends money recklessly, it is only fair to say that it is carefully spent where it will do the most good politically.

Newsprint will cost the publishers of the United States from fifty to seventy-five million dollars more this year than in 1913, and yet they tell one not to worry.

The birds are having a hard time finding enough to eat while the ground is snow-covered. Why not place grain, crumbs and table scraps where the birds may find the food?

Instead of fining the citizens who fail to vote, as Senator Works proposed in a bill just introduced, the friends of good government might feel thankful that these people keep away from the polls.

If the government as proposed should transport the unemployed to other places where work is offered, there are a good many of us who would consider it an opportune time to resign our jobs.

The people are looking forward to government ownership of railroads, which influential politicians will secure them marble structures with terrazo floors for the flag stations where trains stop once a day.

The Ohio general assembly will vote this winter either for or against the protection of the quail—the farmer's best friend. If you favor protection of the birds write a card to your representatives in the legislature. The senator from this district is Hon. J. H. Miller, the representative from Licking county is Hon. James J. Hill. Address them in care of the Ohio Legislature, Columbus, Ohio.

Newark was shocked last night to learn of the sudden death of James K. Hamill at the home of his brother-in-law, James R. Pinzillo. A few days ago Mr. Hamill came from Florida on a business trip, expecting to return this week to the South where he was interested in real estate development. He appeared to be in excellent health. James K. Hamill was a successful business man. His judgment was good and his opinion on real estate values and other business matters was sought by others. His word was as good as a bond.

"Who told you that a Secretary, a Congressman and a Senator were involved?"
"You did."
"I did not."
"I call God to witness that what I said is the truth. P. S. It was somebody else who told me about the Secretary."

The manufacturers of film dramas cannot fail to recognize the enormous drawing power of Thomas W. Lawson at an investigation. He wouldn't mention any names at the original investigation. He would not stoop so low as to betray a confidence. Having got Congress and the public to a white heat of excitement, he turns deftly on his pursuers and chances the chairman of the committee with retelling the gossip to him. There was never anything before so clever at an investigation.

After having accused the chairman of being his informant, Mr. Lawson easily rattled off the names of the President's secretary, and a banker and a Senator whose name began with "O." But of course he was accusing no one. He had no knowledge of the facts. He merely repeated, most unwillingly and under the compulsion of the House of Representatives, what somebody had told him, or what several persons had told him. Of course, they might have been liars; he might have been imposed upon. He merely repeated what he had heard.

Every person mentioned by Mr. Lawson has made an indignant denial, and of course Mr. Lawson is very sorry that any one had mentioned their names to him. No one will believe for a moment that Mr. McAdoo or Mr. Tamm, or the other persons mentioned, used advance information regarding the President's note for a bear raid on the Stock Exchange.

And there is nothing in the course of the market on December 30 that calls for any sensational disclosures. Prices of war stocks had been declining since the German peace overtures were announced December 12. The more they declined, the more weak holders were squeezed out. The declines of more than a week led banks to reject these securities as collateral, or to throw them on the market before their value became more impaired. The decline forced brokers to call for more margins, and speculators who could not, or dared not, put up more money had to sell. This accounts for the slump in the market during the last hour of trading on December 30.

But Thomas W. Lawson has had the time of his life.

Western Farm Wages.

(Milwaukee Journal.)

In some parts of the country, where the price of land is high, it is no longer a case of the humble farmer, but of the capitalist on a considerable scale. Kansas has been looking into farm values and finds that on 195 farms, valued at more than \$26,000 each, receipts averaged more than \$2500. Ten farmers investigated had farms worth more than \$30,000 each, with annual crops in excess of \$4000. Kansas farmers apparently are leaving large estates. Estates of one-fourth this size would mean affluence to the rank and file of city workers.

It is interesting, however, to note that these Kansas farmers, after allowing five per cent interest on the value of their farms, received an average of less than \$4000 a year as the total wage of the family. Since the ruling interest rate is about five per cent, these farmers could easily sell out and get five per cent returns on the value of their properties.

Surely the farmer, his wife and children are entitled to a wage of more than \$32 a month. The conclusion is inevitable either that these farms are not producing enough, or that land values are inflated. The latter is particularly true where the land craze has been carried to unheard-of prices of \$260 to \$300 per acre. Despite the experience of the past, the rise in land must finally reach sensible bounds, perhaps sooner than most people expect.

The Next Moves in Mexico.

(Columbus Dispatch.)

The work of the American-Mexican commission is ended, and the result of it is the recommendation by the American side to the president that the military column be withdrawn and that Ambassador Fletcher be sent to the City of Mexico, thus establishing full diplomatic relations. Carranza's commissioners view the result with satisfaction, believing that they have won a victory. What they have done is to dismiss the military aid that was offered in good faith to Carranza and to leave him unsupported in his fight with his enemies and in his tremendous task of reconstruction. But to neither of these obstacles Carranza gives intelligent consideration. He looks sanely at neither friend nor foe, and there is nothing at all in the two actions recommended and now imminent that gives hope of the establishment of a stable government in Mexico.

Peace With Mexico.

(New York World.)

Although the conference of the International Commission, now at an end, has led to no agreement between the United States and Mexico, the only one in the whole world, the good, it has been definitely established that neither country wants war. A better understanding of conditions has been reached. When the appointment of a joint commission was agreed upon last July, the two nations were all at odds and enmity. Blood had been shed, the war-makers on both sides of the border were talking loudly of honor, and a long and costly conflict seemed to be at hand. After sessions lasting five months, the international conference was not able to formulate a compact of any kind, but in removing friendly relations and removing unprovoked causes of friction it did something of greater importance. As both are nations at peace and

wishing to keep the peace, the United States and Mexico will hereafter address each other by means of military agents or specially selected representatives, but through regular diplomatic channels. Henry P. Fletcher, long ago appointed and confirmed as Ambassador to Mexico, will now proceed to his post, and the question of damages resulting from disorder will be referred to a claims commission. As nations are to be judged more by their deeds than their words, events will soon determine the degree of friendship and good faith entering into the recent parleys. If a free exchange of views has done no more than enlighten the ignorant and restrain the angry it is well worth its cost.

British War Fortunes.

(Indianapolis News.)

War fortunes are being made in Great Britain, says The Edinburgh Scotsman, in the manufacture of munitions of war, in shipping, in coal, in many trades that have been stimulated to unusual energy and by fishermen—the few who have been left to carry on that industry. Trawler skippers are driving their own motor cars and their wives and daughters ride in them clad in costly furs. Potato growers are gaining great wealth by the rise in "spuds." "A little over two months ago," says The Scotsman, "a South Lincolnshire farmer sold his 1000 acres of growing potatoes at 40 pounds an acre, on the assumption that the price would be 5 pounds a ton. He made a profit of over 20,000 pounds, but the purchaser is in a position to sell today at double the price he gave, and to make a profit on the deal of 40,000 pounds. Imagine 60,000 pounds from 1,000 acres of potatoes!"

"GOOD NIGHT"

25 Years Ago

(From Advocate, Jan. 19, 1892.)

The excellent sleighing of last Saturday night was taken advantage of on all sides. One of the jolliest crowds we have seen was that which left the city in two large sleighs for Hebron. Those composing the party were Mr. and Mrs. F. G. Warden, Mr. and Mrs. J. M. Graham, Mr. and Mrs. F. O. Hanson, Mr. and Mrs. George Starrett, Mr. and Mrs. J. N. Howard, Mrs. Nettie Ashley, Mrs. Gertrude Smucker, Mr. Gil Daugherty and Mr. E. W. Crayton.

15 YEARS AGO TODAY.

(From Advocate, Jan. 19, 1907.)

Robert Fulton, who has been quite sick at his home in the Cherry Valley for the past two months, was able to sit up on Sunday.

Albert Webb who is employed in the office of the Armour company at Columbus, has returned to that city from Louisville, Ky., where he was transferred a couple of weeks ago. Mr. Webb spent Sunday with his parents, Mr. and Mrs. George Webb, on West Church street.

Mr. and Mrs. F. C. King will leave Tuesday for Laurel, Miss., to spend several weeks with their son, Mr. F. A. King.

Mr. Charles Youse, son of Mr. and Mrs. Fred Youse, arrived home after three years Philippine service Sunday noon. Last July Mr. Youse was promoted to regimental commissary sergeant, a reward of merit.

Editor of The Advocate:
The Advocate "Melting Pot" has saved its first anniversary on Wednesday and celebrated the event by giving six prizes for original paragraphers. This department, coming as it can hold its own with a like column in any newspaper in the state and be reason of its originality, can claim the distinction of being the most diverting and entertaining part of The Advocate. Many Advocate readers have passed it by, but everything is original except the occasional verse from some clever paragrapher, with humorous comment by the editor. Even the "Did You Know" paragraph, embodying some important fact each day is right up to the minute, and not selected haphazard from a mass of encyclopaedia information. Our hats are off to The Melting Pot!

Get Rid of Constipation and Your Skin Clears Up at Once

Take Tolle Water—A Wineglassful Will Flush the System in Thirty Minutes.

Keep your bowels regular, your liver active and your skin will clear up and stay clear. Sallow skins, pimply faces, coated tongues, foul breath, headaches, biliousness, dizzy spells, and that nervous, tired, run-down feeling all come from poisonous toxins the blood absorbs from decaying waste in the bowels.

Tolle Water from Dawson Springs, Kentucky, will give quick relief. Get a 15-cent bottle from the drug store and take a third of a tumblerful in a glass of plain water before breakfast. In half an hour it will wash out the stomach and bowels and start you feeling good.

But to clear up the skin and remove the poison from the system you should take a wineglassful before breakfast for several mornings. After that you can keep your bowels as regular as a clock, your liver active and your skin clear and peachy by taking a wineglassful occasionally.

Judge T. B. Fulton and Judge Harry Jewell of Delaware will occupy the bench. There will be two courts Monday and Friday and it will be necessary to utilize the appellate court room.

WAIST OF PAISLEY FIGURED SATIN

Figured satin will be a feature of this summer's styles in waists as khaki-kool will be for skirts. The skirt is of khaki-kool with broad stripes of colored plaid. Novel shirred pockets add to the attractiveness and are quite convenient for the out-door girl who is summering at one of the resorts and who does not care to be encumbered with the conventional bag.

Milady's Boudoir

One of the best mixtures for winter treatment of the hair consists of 16 ounces of pure cologne and two ounces of refined castor oil. One would think this a rather greasy mixture, but it is not. It is easy to apply, does not make the hair or scalp greasy or shiny and is agreeable in feeling and odor.

If you find that you have neglected to keep your hair properly moist during the cold months and need a stronger tonic, use four ounces of cologne, one half ounce tincture of cantharides and one-fourth dram each of oil of rosemary and oil of lavender. To apply this part the hair every few inches all over the scalp, and rub the liquid in thoroughly with the finger tips or with a very soft brush. Use either of these mixtures three times a week unless the hair is exceedingly dry, in which case, use it every other day for two weeks. It is best not to use it too frequently, as it will make the hair too oily.

So many women complain that their hair seems to fall out only in the winter. That is surprising for they do not realize that the cold weather has something to do with it. If you notice that your combings are large during the cold months, you may be sure that you have neglected it so much that continued dryness has caused this condition. To remedy this, make a mixture of one and a quarter drams of tincture of nux vomica and twenty drops of oil of bergamot. Rub this into numerous partings of the hair every other night for a week.

Perhaps some may hesitate about going to this trouble, but I doubt if you will when I explain that nothing turns the hair gray so speedily as continued dryness, due to an absence of nourishing oils.

If you are having trouble with your stomach and your skin shows positive proof of it, practise the following exercise:

Raise your arms above your head putting the fingertips together and then bend the body back, inhaling deeply meanwhile; straighten up and then bend forward from the waist without flexing the knees, lowering the arms at the same time, but still keeping the fingertips together, until you can touch the floor. Exhale as you bend forward.

Repeat this exercise as many times morning and night as the endurance of your muscles will permit. Fruit phosphates, especially the wild cherry, should have their place in your diet because of their salutary action upon the circulation and the nerves. Oranges, of course, must not be forgotten and lemons are invaluable for the liver.

There are no better laxatives than plums, either in their original state or in their dried state as prunes. Always remember that all these berries and fruits should be eaten with their skins on and accompanied by as little sugar as possible.

Pineapple the juice, not the pulp, has very strong antiseptic virtues; it will digest food as well, almost, as the gastric juice in your own stomach. You need never fear indigestion if you will keep pineapple on your daily menu.

It is in such regions of the body as the neck, arms and shoulders that the curve of beauty in all its sweet and seductive sinuosity is most attractive and therefore desirable. And it is just here that that graceful rounding of the human form is so often conspicuous by its absence. In the face, the complexion, the expression, the play of feature is the thing, but when we come to the consideration of the neck, shoulders and arms we look for form and line rather than for color.

Flesh full, firm and lustrous lends to these celestial regions of feminine anatomy. Muscular fibre, with the right sufficiency of fat to round off the angles and fill up the

odd corners, is the only wear for the bones that lurk behind all human loveliness. This right rotundity of lustrous neck, of snowy shoulders and dazzling arms, that duple as they move, is only obtainable therefore, by muscular development stimulated by judicious exercise. These tissues have got to be built up when lacking or toned down where superfluous.

Most imperfect necks owe their imperfections to a pronounced prominence of tendon where muscular tissue and fat should be, and to those unfilled hollows above and below the collarbone, known to all and sundry as "salt cellars."

Arms and shoulders can only become beautiful through being put to those uses for which they were designed. Arms which do nothing but swing idly, and mechanically when their owner walks are certain to remain flaccid and skin and bone. It is perfectly useless to look for perfection in an arm which is never called upon to perform any of those functions for which it was presumably designed.

Exercise, and plenty of it, is the only cure for the scraggy arms and the angular shoulders. First aid, may however be rendered by a good skin food regularly and vigorously applied.

Our Boys and Girls

One family I know has solved the problem of a playroom for the children by using a part of the large living room and yet making it seem like a separate room. At right angles to one of the long walls bookshelves have been built, shutting off a corner of the room and making it a sort of alcove.

Back to back to the cases for the books for grown ups are shelves for the children's books and for their toys. There are low chairs and in a good light by the window, a broad low table, around which the little ones gather with their painting, sewing, reading and games.

It is understood that when mother or father are entertaining callers, the games should not be too noisy or too disturbing. If the children are wanted in the grown up portion of the room, they are easily summoned.

Real rebellion in a child comes from a sense of personal injury, and no matter how faulty his conception may be, he has a moral right to an understanding of the reason for punishment. To a child who is old enough to reason, mere submission to a demand without the consent of the will, is worse than useless as far as the moral effect upon him is concerned.

We often see mothers whipping the hands, or spanking little ones less than two years of age. There is no doubt that the average child begins to comprehend the meaning of mindings at a very early age. Still, it is a revolting idea that such a baby would be subjected to such a process of hardening, which may soon result in the necessity of frequent whippings.

Teach your child how to place his feet correctly from the moment he takes his first step. Then be most careful in the selection of his shoes. Allow the baby in long clothes to go barefooted unless you note that his feet are inclined to be cold. In this case it is wise to cover them with little knitted socks.

Let the first shoes be on the order of the Indian moccasins, and as the foot grows it should be fitted from traces. Have the child stand upon a piece of paper and trace the outlines of the foot with a pencil. Use this as a guide when buying his shoes and you will never make the mistake of getting them too small or ill fitting. In winter provide high laced shoes as they can be adapted to the size of the foot better than buttoned ones. Never draw the laces too tight as they will impair the circulation.

Obituary

Samuel Madara.
Samuel Madara, a veteran of the civil war, aged 78 years, died this morning at three o'clock at the City Hospital after a few weeks serious illness, death being caused by Bright's disease and organic heart trouble. Mr. Madara came here about thirteen years ago and for the last five years has resided at the R. B. Couch home in South Third St. He left here and went to North Dakota early in the summer and returned about a month ago on account of illness. He was a native of Johnstown, Pa., and enlisted in a Pennsylvania regiment during the civil war. He was a member of the local G. A. R. He is survived by a son, Clifford Madara, of Pittsburgh, a daughter, Miss Katie of Fallsburg, Pa., and a sister, Mrs. Mary Ritz of Johnstown, Pa. The son will arrive this evening and the funeral will take place Saturday afternoon from the Criss Brothers undertaking parlors in West Main street.

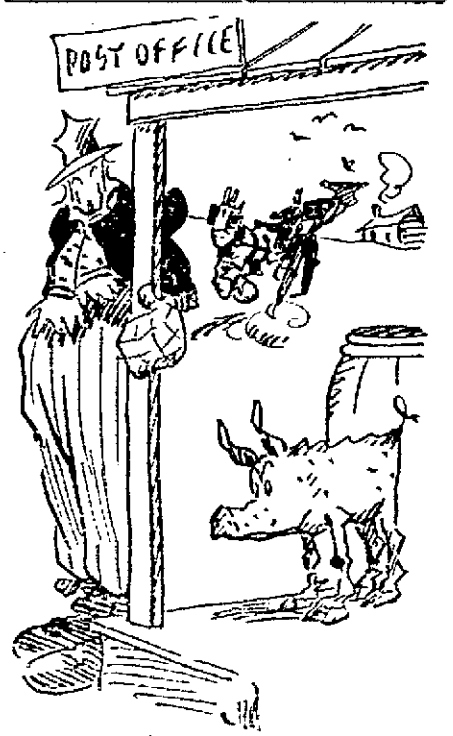

Miss Emma Bolsar.
Miss Emma Bolsar of 28 South Arch street, who died at the home of Mrs. Harry O'Haredesty, 245 Race street, Tuesday night at 10 o'clock, was born August 23, 1861, in Georgia. She came to Newark in her youth and has since resided here. She is survived by a niece, Mrs. Burns Hughes of 129 South Webb street this city and a sister-in-law Mrs. Frank Bolsar, also of this city. The body was removed to Bradley's mortuary chapel and the funeral services were held there Thursday afternoon at 1:30 o'clock.

SCHIFF'S

Every Day Etiquette

"Will you please tell me how to reply to an invitation to a wedding and reception?" inquired Harry.
"A written reply is not necessary as your presence is an acceptance. If you cannot attend you should send your cards to the parents of the bride," said his father.

"Are the guests at a debutante's reception expected to send flowers?" asked Albert.
"The guests are not necessarily expected to send them but it is nice to do so," advised his friend.

"Is it proper for a lady to stand when being presented to a gentleman and should she extend her hand in greeting?" queried Mabel.

"She need not rise unless the gentleman is a good deal older than she is and she extends her hand first, unless it is a young man, when she merely bows," said her aunt.

Delivered at Wrong Address.
Little Roy longed for a baby-sister. His playmate, Tommy Smith, had a number of little sisters and a new one had just arrived. "If you want a baby sister so badly," said Roy's mother, "why don't you pray for one?"

"I have prayed," answered Roy disgustedly. "and every time I pray God leaves it at the Smith's."—Boston Transcript.

RADIUM LACE NEW THING FOR WAISTS; DRAPED POCKETS SEEN IN NEW SKIRTS

Pockets are becoming quite a distinctive feature of milady's frocks and dresses. The draped pocket in this gown is strikingly novel and quite pronounced. The delicate blouse is of silk and lace and Paisley georgette and the dress is made one of the most pleasing combinations seen yet. The hat is of the modern style, slightly remodeled and adorned with a pom pom.

Careful Cincinnati People Now Treat Colds "Externally"

Take a Hot Bath—a Good Rub Down With Vick's VapoRub and Then Leave Your Bedroom Windows Wide Open for the Night. No Internal Dosing Will be Needed.

After Applying Vick's VapoRub Over Throat and Chest, You Should Cover With a Warm Flannel Cloth. The Body Heat Vaporizes the Ingredients Which are Breathed in All Night Long.

Here is what Cincinnati people think of the Southern remedy—Vick's VapoRub Salve, introduced in Ohio four years ago.

Mrs. L. V. Mann, 1714 Brewster Ave.:—
"I have used your Vick's VapoRub Salve four years, and find there is nothing better for lead or

chest colds, sore throat and also headache."
Mrs. Fred M. Callahan, 1023 St. Gregory St.:—

"Our home is never without Vick's VapoRub, as it has done our children a world of good. When they had croup or heavy colds, and would almost choke during the night, they would get immediate relief after one good application over the chest and back."

Mrs. G. P. Dollemeyer, 4156 Milton Street:—

"I have used Vick's for almost every ailment, and have found it to be the best remedy I have ever tried."

HELPS NATURE TO HELP YOU

The human structure is so constructed that it is unnatural and impossible for disease to creep in without cause. The nerve system which leads to, and controls, life in every remote part of the body, is designed to give perfect health to all the organs and keep them in repair. If there is the slightest interference with the nerve communication there is bound to be disease in the particular organ affected.

MURDER

CHARGE MADE IN INDICTMENT RETURNED AGAINST CARL DICKEY BY GRAND JURY

Thirty-five True Bills Found After Examining 165 Witnesses—40 Cases Were Ignored.

The grand jurors for the January term made their report to Judge Fulton late Thursday afternoon. They reported that they had found 35 true bills of indictment, having examined 165 witnesses, covering 75 cases, and ignoring 40. The following indictments have been made public:

John Edward Kisper, embezzlement; Brady Whyde, burglary and grand larceny; Wayne Green, burglary and grand larceny; Jno. Edwin Swan, failure to provide for minor children; Carl Dickey, murder; Asa Lewis, larceny; Asa Lewis, burglarizing an inhabited dwelling house and larceny; Roy West, grand larceny; Jas. Tomlily, carrying concealed weapon; Philip Del Berella, carrying concealed weapon; Samuel Dunlap, sodomy; Benjamin Smith, carrying concealed weapons; Forrest Kitcher, unlawfully operating motor vehicle; Gilbert Hafer, grand larceny; Walter Woods, larceny; Charles Armstrong, forgery; George Shaffer, burglary.

The grand jurors recommended: That the jail be wired for electric lights; that sanitary closets be installed upon each floor of the jail; that linoleum be placed upon the kitchen floor, and the zinc denuded on kitchen table.

The following resolution was adopted unanimously:

Whereas, We have been greatly assisted in the performance of our duties by Charles L. Flory, prosecuting attorney, be it

Resolved, that a vote of thanks be extended to him for his able advice, his clear, comprehensive and helpful instructions, and the careful and expeditious manner in which the matters were presented by him to the grand jury at this term; to B. O. Horton, clerk of courts, for the many courtesies shown us; to Charles C. Cooper for his very superior stenographic report of our proceedings, and to Thomas W. Montgomery for his careful attention to the duties of bailiff to the grand jury.

A resolution was also passed unanimously complementing the sheriff, Charles H. Swank, upon the excellent condition of the jail.

WOMEN OF MIDDLE AGE

Mrs. Quinn's Experience Ought to Help You Over the Critical Period.

Lowell, Mass.—"For the last three years I have been troubled with the Change of Life and the bad feelings common at that time. I was in a very nervous condition, with headaches and pain a good deal of the time so I was unfit to do my work. A friend asked me to try Lydia E. Pinkham's Vegetable Compound, which I did, and it has helped me in every way. I am not nearly so nervous, no headache or pain. I must say that Lydia E. Pinkham's Vegetable Compound is the best remedy any sick woman can take."

OUTGREW HER STRENGTH

A fine, tall daughter, the pride of her parents, may have grown too fast. If, with her height, she is calm, even-tempered, rosy, with bright eyes and a springing footstep, you have nothing to fear for your girl. But this rapid growth is sometimes gained at the expense of her strength. Wayward temper, a constant hunger for sweets, lead-aches, and a pain in the back and side after a little healthy exertion mean that instead of entering womanhood smoothly and without disturbance, as she should, she is paying already the penalty of thin blood. Watch for moods. Look, after she has climbed a hill or run upstairs, for breathlessness, a color that comes and goes, and a heart that beats fast and painfully. These mean anemia, and an anemic girl will never make a healthy, blooming woman. She is bloodless. Let her have Dr. Williams' Pink Pills for Pale People. Soon a better appetite, bright eyes, calm temper and fresher color in lips and cheeks will tell you she is making new blood. Then all will be well.

"Building Up the Blood" is a useful booklet that will be sent free on request by the Dr. Williams' Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills. Price 50 cents.

FIVE MILLION SEALS SOLD IN OHIO BELIEF OF OFFICIALS.

Each year witnesses an increased interest in the anti-tuberculosis campaign on the part of women's clubs in Ohio. This is especially marked in connection with the sale of Red Cross Seals. Dr. Robert G. Pater-son, executive secretary of the Ohio Society for the Prevention of Tuberculosis, has kept a careful record of the work done in Red Cross Seal work this year, and while the record may not include every club that has done any work, yet it is sufficiently complete to indicate the wide spread interest of the organized women's clubs in the anti-tuberculosis movement.

The Red Cross Seal in Ohio promises to be the largest ever held. S. Livingston Mather, Cleveland, chairman of the state committee, estimates that the slogan of "five million seals in Ohio" will be reached and passed. Most of the seals were sold through the work of women's clubs in the state. The City Federation had charge of the work here.

SALVATION ARMY WORKERS GIVE AID TO MANY IN NEED.

The life of a Salvation Army worker is not an idle one, judging from the annual report of Adj't. J. C. Watkins of the local corps which has just been made public. He has numerous other duties besides singing gospel songs on the street corner and preaching words of encouragement to the fallen in the lowly walks of life. There are the sick to be visited, the stricken to be comforted and the poor to be provided with food and clothing besides the effort to show poor children that Christmas is a universal institution.

Last year—Twelve hundred homes were visited, 890 hours being spent in those homes; 55 sick persons received calls from the Army. Three hundred and seventy-four persons attended 109 open air meetings, aggregating 210 hours. Indoor meetings numbered 142, aggregating 250 hours, and attended by 2728 people. Young people numbering 3473 attended 196 meetings. The corps members sold 1000 war crys at a profit of \$50. Over 3,000 magazines were given to prisoners and sick people.

In distributing charity, groceries worth \$287.11 were given to the poor, as well as 1615 quarts of milk, 239 loads of coal.

Work was found for idle men and women totaling 164 days. Clothing distributed, numbered 1139 garments; meals were furnished to 41 tourists; 562 ice tickets were furnished to the poor and sick; 485 loaves of bread, and 99 pairs of shoes were given out.

Lodging was furnished to two men and nine women; transportation to six. Flowers in cases of illness and death were sent to 18 homes and eight potted plants sent to the sick.

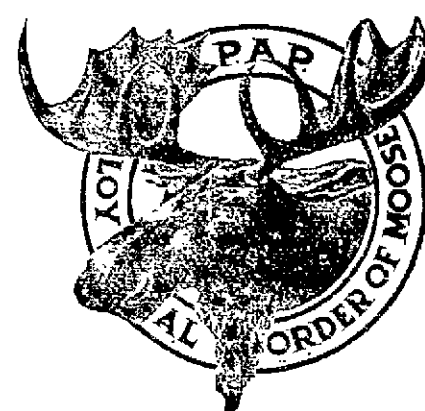

The Christmas treat for the poor furnished 127 baskets sufficient for 635 meals and 90 got Christmas dinner at the Salvation Army hall. Children received 70 new garments, adults 80 and 1000 toys, new and second hand were furnished to children; 500 oranges and apples and 540 boxes of candy went to the children. At the same time seven new pairs of shoes and 13 loads of coal were sent where most needed. The total value of "Christmas cheer" was \$315.

Total collections from all sources, including cash, was \$2740.19. The expenditures totaled \$2631.78. The balance \$68.22 was devoted to general relief this winter.

In compiling the above report Adjutant and Mrs. Watkins extend their sincere appreciation for the support given by the public to their efforts.

PYTHIANS SCORE BIG HIT AS HOSTS AT DINNER PARTY

The annual "Open House" of Newark Lodge, No. 11, Knights of Pythias was held last evening in the new K. of P. Hall in East Main street and was a success in every particular, about 750 people participating, including members and their families and invited guests. It being necessary to serve dinner to 375 while others occupied the time on the balcony and ball room, could he served. It was the largest crowd which has ever filled the new home. The banquet hall was especially decorated for the occasion with flags and pennants, with streamers stretched across the room while ferns, palms and bouquets of hot house flowers were conspicuous and all the large arc lights were shaded with different colors. The K. of P. orchestra of fourteen pieces furnished the music throughout the evening and it was one of the enjoyable features of the program.

The guests were met at the door by a reception committee which directed them to the cloak rooms and later assigned them to their places at dinner tables, seven of which ran the full length of the hall. The supper was prepared under the direction of Miss Biebarbach and was served by members of the lodge, the service most excellent. The committee in charge of the affair was E. L. Schneidt, H. H. Stauffer, J. E. Grafton, Oscar Brown, Fred Hankins and W. C. Wilson.

After everybody had been served the hall was cleared of the tables and an excellent program was given, the first number of which consisted of the audience singing "America." Next was a most excellent drill by the Pathian Sisters. W. C. Wilson then rendered a splendid vocal selection and was followed by I. S. Loughman in a monologue, "Who Pays de Freight." The monologue was in black face and his effort was highly entertaining. "Fanny Belles That I Have Met" was the title of an address by M. Davis, and it was well received.

program and recited "Osler Joe," the audience being highly pleased with his effort. Mr. Cooper is a splendid reader and ranks with any professional and it is always a pleasure and a treat to hear him. A quartette calling themselves "The Musical Four" gave several selections which were highly enjoyable and it was followed by Mr. E. Linden, who recited "Sadie Cohen." "Meet Me at Twilight," was sung by Mr. Vogel and he was followed by Ralph Lombcomb singing a popular ballad, "I'm Afraid of Beautiful Girls," making an instantaneous hit with the large audience. The singer was costumed as a colored soldier.

The dinner was a great success in every particular and the committee having the affair in charge is to be highly complimented for the splendid manner in which it was managed. All present enjoyed every minute and will anxiously await the next "Home Coming" with much pleasurable anticipation.

the home of his son Gray Collins in

Careless Use of Soap Spoils the Hair

Soap should be used very carefully,
if you want to keep your hair looking its
best. Most soaps and prepared sham-
poo, contain too much alkali. This
dries the scalp, makes the hair brittle,
and ruins it.

The best thing for steady use is just
ordinary mulshed coconut oil (which
is pure and greaseless), and is better
than the most expensive soap or any-
thing else you can use.

One or two teaspoonfuls will cleanse
the hair and scalp thoroughly. Simply
moisten the hair with water and rub it
in. It makes an abundance of rich,
creamy lather, which rinses out easily,
removing every particle of dirt, dandruff
and excessive oil. The hair dries
quickly and evenly, and it leaves
the scalp soft, and the hair fine and
silky, bright, lustrous, fluffy and easy
to manage.

You can get mulshed coconut oil at
any pharmacy, it's very cheap, and a few
ounces will supply every member of the
family for months.

Lancaster Man Held For Arson Store Was Burned

(Associated Press Telegram)
Lancaster, O., Jan. 19.—Asa B.
Dennison, wealthy retired merchant
arrested here last night on charges
of arson, following by State Fire
Marshal Buckley was today released
on a writ of habeas corpus issued by
Judge Reeves in common pleas
court. Dennison is charged in an
affidavit filed by the fire marshal
in the court of justice E. K. Shumaker
at Rushville with having been
responsible for the burning of his
store at Rushville, August 1912.
When Justice Shumaker refused to
fix his bond and committed Dennison
to the Fairfield county jail he
obtained his release on a writ of ha-
beas corpus. Dennison recovered
judgment for insurance on the burned
building but the supreme court
recently reversed this judgment and
action of the fire marshal's office
followed.

AMERICANS

(Continued from Page 1.)
with the Hudson Maru a week ago
the raider has dropped out of sight
and so far as can be ascertained, is
still at large.

Great anxiety is felt for the safety
of various vessels in waters which
are regarded as in the danger zone
and various reports of additional
sinkings are current, but there is no
indication that these stories have any
substantial basis. The French mer-
chantman Samara, 6007 tons, which
was reported to have been sunk is
safe and is due at Rio Janeiro this
afternoon. The vessel in regard to
which the greatest concern is felt, is
the 8000 ton British steamship Or-
tega, on her way to Pernambuco. It
is reported from that city that she
has returned to St. Vincent but the
report lacks confirmation.

No official information has been
obtained in corroboration of the re-
ported arrival at St. Vincent, Cape
Verde Islands, of the British steam-
ship Yarrowdale, one of the vessels
captured by the raider which is sup-
posed to have on board the crews of
eight destroyed steamers.

From accounts given by men from
the destroyed steamships, as pub-
lished in the newspapers, it appears
that the raider has a speed of about
sixteen knots. The crews of the
French bark Nantes and Amieries
which arrived at Pernambuco on the
Hudson Maru, took passage today on
the Brazilian steamship Minas Gar-
ces or Bahama, Brazil, where they
will await a French steamship to
take them home.

IS COLUMBUS BOY.

(Associated Press Telegram)
Columbus, Jan. 19.—Guy Van Dorn
listed as among the Americans cap-
tured by the mysterious German
raider on board the British steamer
St. Theodore, is a Columbus boy,
aged 20. He was visiting in Nor-
folk, Va., and according to word re-
ceived by his mother sailed on the
St. Theodore as a machinist.

PACKED

INTO SINGLE CAR, GRANVILLE
PEOPLE WHO ATTENDED
CONCERT, PROTEST.

Two Cars Promised by Company To
Accommodate Crowd Failed to
Appear—School Board.

(Special To The Advocate)

Granville, Jan. 19.—At least fifty
people from Granville, possibly
more, heard the New York Sympho-
ny Orchestra in the Newark Audi-
torium last night, which proves their
devotion to the art, and the triumph
of mind over matter. For the whole
crowd was packed into one car, half
of them hanging to straps, although
they had received the assurance that
two cars would be used. Further-
more, although the O. E. track runs
within sixty feet of the Auditorium,
the company was carried to the sta-
tion on West Main street where they
enjoyed the pleasure of a long walk
back through the snow, reaching their
seats barely in time to avoid the
long wait imposed on the tardy.
By the time the same process of
tramping to the car and being herded
therein for the ride to Granville had
been experienced much of the en-
thusiasm and delight in the mag-
nificent performance had been dull-
ed. Special occasions should receive
special consideration ever from a so-
called "soul-less corporation."

Two members of the Granville Vil-
lage Board of Education, Dr. E. P.
Cook and Mr. C. W. McLees have
handed in their resignations. This
drastic measure is explained in a
vigorous open letter to the Granville
Times. Dr. Cook has been a valued
member of the board for fifteen
years and it is felt that he would not
act hastily nor ill advisedly.

Mr. James Davies, while at work
on his farm near Dover street, yester-
day afternoon about 4 o'clock, suf-
fered a stroke of paralysis. Mr.
Davies who was in town during the
early hours of the afternoon, seemed
in his usual health, making no com-
plaint of feeling ill. He is resting
comfortably, but is unable to speak.
Miss Lucy Outcalt of Columbus, is
visiting her sister, Mrs. Henry Burk-
ham.

Mrs. John Larimore, who went to
Chicago two weeks ago for an opera-
tion on her eyes, is reported by her
son, Dr. Fred Larimore of New Phil-
adelphia who has been attending her,
to be doing well. The operation has
been completed and the physicians
are of the opinion that her sight will
be restored.

Mr. David R. Owen, well known
farmer of Berry street, suffered a
slight stroke Friday night, and has
been confined to his bed ever since.
If any reader of the Advocate is
in possession of old catalogues of
Denison University antedating 1853,
he would confer a favor on the col-
lege by contributing to the incom-
plete file in the Denison library. The
numbers missing are those printed
in 1839, 1843, 1848, 1850, 1852 and
1853. In looking for them among
old papers, it should be remembered
that they were much smaller than
the catalogues printed now and the
first two bore the name "Granville
Literary and Theological Institution,"
on the title page, and the others
"Granville College."

For next week three interesting
events are booked: The Annual Cir-
cus of the Y. M. C. A. on Friday eve-
ning, January 26th, in the Granville
opera house; a lecture course en-
titled "The Future of the World,"
by Monteville Wood, one of the best
of the best on this or any other
course, on Saturday evening, Janu-
ary 27th, in the same place; and a
basket ball game, Denison vs. Ohio
Wesleyan on the same evening in
Cleveland hall.

Word has been received by Mrs.
T. B. Jones that her brother and
sister, Mr. and Mrs. James A. Huston,
who left last Friday for the west,
have spent a pleasant week at the
home of their son-in-law and daugh-
ter, Mr. and Mrs. Henry Eaton in
Burlington, Ia., and are leaving to-
day for the last stage of their jour-
ney to San Diego, Cal. They have so
far escaped the snow storms which
have come this way.

Friday will be the final night in
the evangelistic service in the Pres-
byterian church. On Saturday will be

MANY WOMEN TESTIFY.

Columbus, Ohio.—"I was so well
pleased with the use of Dr. Pierce's
Favorite Prescription that I am glad
to endorse it. I was run-down and
had female trouble and I doctored
with several medicines with no benefit.
The 'Favorite Prescription' put me on
the road to health. I used seven
bottles and this medicine was the
means of my recovery. I have been
well since, with no return of the
trouble. I have recommended this to
others who have come back to thank
me on account of the benefits they
received."—MRS. MARY J. DILLON,

Lancaster, Ohio.—"I have had a test
of 'Favorite Prescription' and it proved
a very satisfactory medicine. I took
it in the spring. I was run-down, tired
and worn-out. I used the contents of
two bottles and it did all I could expect
and more. I felt just fine after I had
used it. You may say it is a good
tonic and strengthening medicine for
women."—MRS. J. W. KEAN, 353
E. Main St., Lancaster, Ohio.

The mighty restorative power of
Doctor Pierce's Favorite Prescription
specifically causes all womanly troubles
to disappear—compels the organs to
properly perform their natural func-
tions, corrects displacements, over-
comes irregularities, removes pain and
misery at certain times and brings
back health and strength to nervous,
irritable and exhausted women.

Rupp May Quit Denison to Take Cincinnati Job

Granville, Jan. 19.—Denison is
about to lose one of the greatest, if
not the greatest, athletes that ever
wore its colors in any athletic con-
test, as Nelson S. Rupp has decided
to forsake his books and accept a
position in Cincinnati. Seven years
before the public eye in Granville,
three in Denison academy and almost
four in Denison college, he was with-
out a doubt the best known man in
school.

While in the academy he started
on the remarkable athletic career
that has since brought him state-
wide fame. He played on the foot-
ball, basketball and baseball teams,
besides being a star sprinter on the
track team every year, he was there
in his senior year he was captain of
both the football and basketball
teams of that institution. Upon his
graduation he immediately enrolled
in Denison university, and starred
on the freshman football team, as
well as the track team.

In his sophomore, junior and sen-
ior years, however, he decided to
drop all athletics except football,
but has made a remarkable record
for himself in the gridiron spot. He
has been the unanimous selection of
sport critics over the state for all-
Ohio halfback for the past three
years, besides being captain of the
Big Red team during the season. The
announcement of his leaving was a
surprise to all, as he was to be
graduated in June.

Open to Doubt.

much improved since she went to
college,"
"She's educated," replied the old-
fashioned mother, "but I can't say
she's improved."—Life.

COUNTY FAIRS TO SEEK MORE AID FOR EXPOSITIONS

(Associated Press Telegram)

Columbus, Jan. 19.—The legisla-
tive committee of the county com-
missioners meeting today was con-
sidering in addition to proposed
amendments to the road laws a pro-
posed bill which would give coun-
ties the right to join in conducting
county fairs. County commissioners
are permitted to allow appropri-
ations from county funds to agricul-
tural societies for conducting county
fairs. Several rival societies conduct
fairs in each county. The proposed
amendment would permit towns on
county border lines to draw appropria-
tions from more than one county
as well as from the state.

PLATT SUFFRAGE BILL GETS EARLY CONSIDERATION

(Associated Press Telegram)

Columbus, Jan. 19.—The question
of the Ohio general assembly grant-
ing presidential suffrage to women
of this state is expected to be one of
the first propositions taken up by the
legislature when it reconvenes next
week.

The woman's suffrage bill intro-
duced by Representative Platt, Re-
publican, of Ashtabula, was referred
to the committee on federal relations
and a similar bill introduced by Re-
presentative James A. Reynolds of
Cuyahoga, Democrat, referred to the
committee on privileges and elec-
tions. Both bills are expected to be
pressed for committee hearings next
Tuesday.

Representatives of the Ohio wom-
an's suffrage association here to-
day believe W. J. Bryan's talk for
their cause here yesterday strength-
ened chances of adoption of their
proposal.

Keeps Her Children In Perfect Health

Dr. Caldwell's Syrup Pepsin the
Family Laxative for Many
Years.

Mrs. Aug. Doellefeld of Carlyle,
Ill., recently wrote to Dr. Caldwell,
at Monticello, Ill., that she has used
Dr. Caldwell's Syrup Pepsin in her
home for a number of years, and
would not be without it, as with it
she has been able to keep her four
children in perfect health.

Dr. Caldwell's Syrup Pepsin is a
combination of simple laxative herbs
with pepsin that acts on the bowels
in an easy, natural way, and regu-
lates the action of this most impor-
tant function. Nearly all the sick-
ness to which children are subject is
traceable to bowel inaction, and a
mild, dependable laxative, such as
Dr. Caldwell's Syrup Pepsin should
have a place in every family medi-
cine chest. It is pleasant to the taste
and children like it, and take it
readily, while it is equally effective
for adults.

Dr. Caldwell's Syrup Pepsin is sold
in drug stores everywhere for fifty
cents a bottle. To avoid imitations to
Dr. W. B. Caldwell, 455 Washing-
ton St., Monticello, Illinois.—Adver-
tise you get Dr. Caldwell's Syrup Pepsin.

ROUTING RHEUMATISM FROM THE JOINTS AND MUSCLES

For 26 years Dr. S. Whitehall, of South Bend, Ind., has been demonstrating that it is needless for any human being to suffer with rheumatism. He has devised a treatment for rheumatism whereby many thousands of men and women have limbered their stiff joints, taken soreness and swelling out of leg, arm and back muscles and stopped the shooting pains and terrible aches. These people feel grateful to Dr. Whitehall for the great good his wonderful rheumatic remedy has done.

Dr. Whitehall's Rheumatic Remedy has a national reputation. It is believed in because it has proven a friend in need. It has done more for suffering humanity than rheumatic plasters, liniments, salves, oils and baths. This great remedy gets right to the very source of trouble. Its mission is to dissolve and eliminate rheumatic poisons, ease pain, take out soreness and swelling and limber stiff joints.

Dr. Whitehall's Rheumatic Remedy can be had at any drug store for only 50c a package. The price is well within everyone's reach and no man or woman should suffer longer when relief is so near at hand.

ERECTING CRANE TOPPLES OVER TWO MEN KILLED

Steubenville, Jan. 19.—Two men were killed and four injured, one fatally, late yesterday, when a 50-ton erecting crane, operating on the new Ohio River bridge here, broke loose from its anchorage, toppled over and fell 50 feet to the ground, carrying the men with it. It demolished the Wheeling and Lake Erie Railroad trestle and tied up traffic on that line.

The dead are Thomas Hendricks, aged 23, Roanoke, Va. Millard Price, aged 38, White House, Ky., engineer.

Of the injured, Vernon Lehr, aged 23, Moscow, Ind., timekeeper, will die.

Bruce Kent aged 29, Steubenville, bridge man, not serious.

Two other workmen were slightly injured.

The ereector was being operated on the Ohio anchor span. A 25-ton steel plate, being lifted into position, proved too heavy for the ereector's anchor wires, which parted and caused it to topple over.

Coroner Thomas Kirk is conducting an investigation.

Beller Was Member of Buckeye Band; Attempted Suicide

George Beller, who attempted suicide yesterday afternoon in his room in a Columbus hotel, by turning on the gas, and who was taken to the Protestant hospital, was much improved today and will recover. Beller is 33 years of age and came to this city last spring, securing employment at the Wehrle plant.

The young man was a musician and was given a place in the Buckeye band, being an excellent flute player. He continued with the band all summer and in the fall left for Columbus, where he expected to secure employment. After being taken to the hospital yesterday he informed the officials in attendance that he was penniless and had been unable to secure work, and for that reason determined to take his life. He expressed a desire to live and upon recovery will make another effort for a position.

When members of the Buckeye band attended the inauguration of Governor James M. Cox at Columbus, Beller met the band at the union depot and kept in touch with the members all day. He told several of the band boys that he had been forced to pawn his instruments and that he was in a bad way financially and had been unable to secure work. The boys assisted him and when they parted Beller stated that he hoped to be able to get on his feet in a short time and that as soon as he was able to do so he would pay them a visit at Newark.

Few things are so absolutely wasted as the pity youth and old age feel for each other.

GAS SHORTAGE TO BE DISCUSSED BY MANUFACTURERS

[ASSOCIATED PRESS TELEGRAM] Columbus, Jan. 19.—Members of the Ohio Manufacturers' Association in session here will take up the subject of state health insurance and also will discuss plans to secure a guaranteed supply of gas during the entire year. The gas shortage has caused many Ohio industrial plants to suspend operations, manufacturers reported.

At today's meeting the manufacturers will elect officers for the ensuing year.

Frank A. Vanderlip, president of the National City bank of New York, in his address to the manufacturers last night made the novel suggestion that individuals be made to pay a tax on expenditures instead of their income. This, he said, would curb extravagance.

375 MINERS MEET DEATH IN EXPLOSIONS

[ASSOCIATED PRESS TELEGRAM] Charleston, W. Va., Jan. 19.—Earl Henry, chief of the department of mines today announced that 375 miners had been killed in the mines of the state during 1916. Of the number 119 met death in McDowell county, sixty in Fayette county and forty in Raleigh county. While the mining department has received notable aid from the federal bureau of mines after a number of explosions, a movement has been set on foot for the creation by the state of a rescue body, to be provided with its own car and trained crew modeled after the United States standard.

GOV. CAMPBELL TO AID STUDY OF LINCOLN'S LIFE

[ASSOCIATED PRESS TELEGRAM] Columbus, Jan. 19.—Former Governor Campbell, head of an organization to encourage the study of the life of Lincoln in Ohio schools, just formed in Columbus and which will announce a definite program at a conference next Tuesday.

Plans for a public meeting at Memorial hall in Columbus on Lincoln's birthday February 12, will be discussed.

Avery-Loeb Will Enlarge Business In New Location

The Avery-Loeb Electric Co., has leased the store room at 46 Hudson avenue, formerly occupied by Beuhler Bros. and expects to move on or about February 1. This change has been necessary on account of the growth in business. The present quarters are entirely too small.

The company has gone to considerable expense in the arranging and equipping of the new location to make it one of the most modern electric supply houses in the state.

The first floor will be divided in three sections, front section used for sales and demonstrating room and office purposes; second section will be used for stock and lockers for each employee; the third section which faces on Church street, will be devoted entirely to electric storage batteries and electric auto supplies. The equipment in the battery department will be of the most modern type, the entire basement will be used for stock rooms and construction repairs.

The business of the Newark branch has steadily increased and the company feels that this is due to the service policy which it has adopted.

The company a short time ago showed its appreciation of the faithfulness of the Newark employees and made each of them a present of a \$500.00 insurance policy and also a 10 per cent increase in wages which took effect January 1. This too, it is hoped, will help us to better serve the public.

The Columbus office has opened two new branches in Columbus, one in North High street, another in Oak street.

Would you speak of the optimistic Spiritualist as being a happy medium?

A pessimist is a person who would rather be right than be happy.

"NO MORE MUNITIONS FACTORIES FOR US," SAY THE CITIZENS OF KINGSLAND, N. J.

Miss Nellie Day and shell which pierced wall of house in Kingsland, N. J.; shell which buried its nose into a railway tie two miles from munition works.

The residents of Kingsland, N. J., the town that was wrecked last week when the Canadian Car and Foundry Company's plant blew up, have threatened to have the law on the company if it attempts to rebuild in that town. The accompanying pictures indicate the reason.
